**GALLANT LADY** tells the story of one of naval history’s most amazing submarines...the boat that sank the biggest vessel ever sent to the bottom by a sub. The first U.S. Navy vessel to have an all-bachelor crew. Served as the platform for one of history’s most amazing scientific feats. Had a bit part in a Hollywood movie. Survived a near-fatal fire. And she still had time to play a crucial role in winning the Cold War.
